20 March 1987

MEMORANDUM FOR: Director of Logistics

FROM: William F. Donnelly
Deputy Director for Administration

SUBJECT: Meeting with General William I. Rolya, U.S. Army (Ret)
President, Delta Data Systems Corporation

John:

1. I met for one-half hour on this date with the President of Delta Data Systems Corporation, retired General William I. Rolya. He stopped by to convey the message that Delta Data has been cleaned up--several senior officers fired, the cost accounting system improved, etc.--and now he would like to arrange to be removed from PN-85.

2. I told him that I had received a report about his company yesterday which indicated that the tone and atmosphere, as well as the accounting procedures, had improved and that if he believed their condition was such that they deserved to be removed from PN-85 status, he should direct a letter to our Director of Logistics, John Ray. I was certain Mr. Ray would look into the matter. I said that in his letter he should indicate the steps taken within the company in the past year to improve in the areas previously discussed. I was sure that the Director of Logistics would weigh these carefully.

STAT

5. When you receive the letter from Delta Data, I would like to see a copy; however, do whatever is required. It's your call.
